

## Light weight (A-60 / B30)

# Windows and glazed partitions

Baggerød as represent Pocadel in the offshore market. Pocadel supplies top quality B0, B15 and A-60 glass walls, partitions and windows for marine and offshore use. All structures are made of aluminum, replacing the traditional steel frames. The fire glass is safety glass with good soundproofing qualities. The structures are light in weight as well as appearance.
